THE RADICAL GOVERNOR DAVIS

AUSTIN, TEXAS, January 12, 1874. Whereas, The Supreme Court of the State has in a recent decision declared the elec-tions held on the 2 l of December, 1878, in substance to be invalid by reason of the uncon-stitutionality of the law under which said election was held; and, whereas, great pubelection was held; and, whereas, great public figury and further dangerous complications of public affairs are likely to result from any attempt on the part of those who claim to have been chosen as members of the Legislature and other officers at said election to assume the positions they claim; therefore, for these and other reesons, which it is not necessary to incorporate herein, it is deemed advisable, and it is so ordered, that those who have been chosen legislators or for other offices, should not attempt to assume the position, unless by further action of adequate authority, such election may hereafter be validated. All good citizens are advised to abide by the decision of the competent tribunal, and aid in maintaining public order and moderate counsels.

(Signed)

J. DAVIS, Governor.

MIDNIGHT NEWS. GENERAL GORDON HE MAKES A SPEECH ON THE SAL ARY BILL AND DISCLAIMS UNKINDLY FEELING TO GRANT.

Washington, January 12.—The speech of General Gordon, of Georgia, in the Senate to-day on the salary question was listened to with great attention, especially that portion of it which partook of the nature of a personal explation and which referred to the surrender of Lee at Appomatox. Mr. Gordon made it because he said he had been charged with being influenced by personal prejudices against the administration. He said that he was one of those who held a prejudices against the administration. He said that he was one of those who held a command in the Confederate army when it surrendered to General Grant at Appomatto z Until then he had never known what grief

was. The negotiation occupied four days and four nights, and during all that time not one word of exultation eacaped the lips of the Federal commanders. In fact, they avoided all conversation relative to the battles in which the Union armies ha een successful, and spoke only of those engagements in which they had been defeated. He, for one, appreciated such magnanimity. It sank deep into his heart, and he mentioned the fact to prove that he was not personally hostile to President Grant.
